EDUCATION

University of Southern California | Marshall School of Business Expected Dec 2027
Master of Science in Business Analytics

Chapman University May 2026
B.A. Economics; B.A. Political Science, emphasis in Political Economy | GPA: 3.7
Certificate of Applied Statistical Analysis, A. Gary Anderson Center for Economic Research
Honors: Presidential Scholarship; Order of Omega Leadership Honor Society; Dean's List (2022, 2024)
Admission Student of the Year (2026), selected by Chapman's admission counseling staff

RELEVANT EXPERIENCE

Strategic Development Intern | General Atomics Aeronautical Systems Jun–Aug 2025
- Conducted defense-market research and synthesized findings that supported senior leadership's decision to pursue a new unmanned-aircraft market.
- Analyzed defense-program budgets, performed financial regressions and built Power BI dashboards to inform strategic planning and government-contract proposal materials.

Graduate Assistant | USC Gould School of Law Fall 2026–Present
- Screen graduate applications for completeness and admissions criteria, synthesizing findings for subsequent review in Graduate & International Programs.

Legal Intern | Children's Law Center of California Aug–Dec 2024
- Reviewed approximately 50 case files daily, briefed staff attorneys on key findings and supported client intake interviews.

SELECTED PROJECTS & RESEARCH

Assassination Attempt: Media Exposure & Public Opinion 2024–2025
- Coauthored a multi-semester independent study with Dr. Lewis Luartz at Chapman. Contributed statistical analysis; team methods included R, multiple imputation, propensity-score matching and ordinal regression.
- Presented early findings at the 2025 WPSA conference, supported by three travel grants.

Podcast Opportunity Explorer | USC Marshall Fall 2026
- Developing a five-person course project to screen 4.7 million Podcast Index feeds for acquisition and localization use cases, with adjustable filters and transparent screening counts.
- Co-designed the data-loading, screening and Streamlit architecture with SQL-side filtering; audited pytest coverage against user needs. Tools: Python, SQL, SQLite, pandas, Streamlit, Git/GitHub.

Trojan Deadline Hub | USC AI Case Competition Semifinalist Fall 2026
- Co-designed an AI academic planner that consolidates syllabus deadlines and grade weights; specified student verification and flags for uncertain dates to reduce reliance on unverified AI output.

Shared-Housing Revenue & Property Prioritization | Chapman Fall 2025
- Co-developed an analysis using linear and logistic regression to estimate revenue per bedroom and prioritize properties; translated amenity and location signals into a Top-20 shortlist and pricing recommendations.

Loneliness & Support for Political Violence | Chapman University Fall 2025
- Independently used logistic regression, demographic controls and age-by-loneliness interactions to assess relationships with support for political violence; interpreted odds ratios and predicted probabilities.

TECHNICAL SKILLS & LEADERSHIP

Tools: Python (pandas, pytest), SQL (DBeaver, SQLite), R, Stata, Power BI, Excel, Git/GitHub
Methods: Regression analysis, predictive modeling, machine learning, econometrics, market research
Leadership: Delta Tau Delta elected Honor Board member; organized the chapter's most successful philanthropic event. USC Symphony Orchestra, cello.
